This is a critically important election year.

We are in a time of crisis, faced with a failing economy, out of control spending, and overregulation that's shutting down or driving away the industries that create jobs and opportunities for American citizens.

We need to restore our economy by limiting government to its legitimate Constitutional foundations, and allowing the American people the freedom to produce and prosper.

This is *our* country. It's up to us to stop the looting of our economy and get our nation back on track so America will once again lead the world in production and prosperity.

Please join us in helping to elect fiscally responsible candidates to all local, state, and national offices this November.

Thank you.
